

AJECT (QATAR)

الشركة العربية للثقب الافقي
والمقاولات والتجارة ذ.م.م (اجكت قطر)
ARABIAN JACKING ENTERPRISES
FOR CONTRACTING & TRADING CO. W.L.L

LEADING THE PATHWAY TO TRENCHLESS TECHNOLOGY

Welcome to Arabian Jacking Enterprises

AJECT-QATAR, founded on 9 July 2002, has evolved since then into a well-equipped and highly-trained enterprise with a professional team and the latest equipment. We are currently executing a variety of projects in Qatar.

We are reshaping underground construction at Arabian Jacking Enterprises. We are your trusted partner in underground construction. Discover the possibilities with us.

More than 143,000 meters of micro tunneling were done in Qatar.
A total of 5,000 meters of micro tunneling were done in INDIA.

What We Do

Leaders in Underground Infrastructure

Arabian Jacking Enterprises has become synonymous with excellence in underground infrastructure. We are dedicated to pushing the boundaries, setting a new standard, and delivering an innovative solution that surpasses traditional limits. We are at the forefront of our industry with expertise in micro-tunnelling, pipeline jacking and manhole construction.

VISION:

Underground Landscape Redefined

Our vision is for innovative, sustainable underground infrastructure solutions to be implemented that transcend traditional boundaries.

MISSION:

Leading the industry with cutting-edge service

Our mission is to lead the industry with cutting-edge services such as micro tunnelling and pipelaying. We are committed to constructing infrastructure that will last for generations and advance communities.

AJECT QATAR's Impressive arsenal of Micro-Tunnelling Machinery:

Micro-Tunnelling Machines

- 1 No. AVN 3000 (AVN 2400 upsize)
- 3 Nos. AVN 2400 (2 Nos. AVN 2000 Upsize)
- 2 Nos. AVN 2000
- 1 No. AVN 1600
- 1 No. AVN 1400 (AVN 1200 upsize)
- 1 No. AVN 1200
- 2 Nos. AVN 1000 (1 No. AVN 800-upsize)
- 1 No. AVN 1080 (1 no. AVN 800 upsize)
- 5 Nos. AVN 800

OTHER EQUIPMENT

- Separation Plants having a treatment capacity of 500 m³/h (3 Nos), 300m³/h(2 Nos.) and 250 m³/h (5 Nos.)
- Generators up to 1250 kva
- Bentonite and grouting pumps, machines and mixers
- Flatbed trucks (2 Nos.) & Heavy Lowbed (1 Nos.)
- Loaders and Backhoe loaders (1 each)
- Forklifts
- Dewatering, submersible and slurry pumps (Electric & diesel)
- Slurry, sedimentation and water tanks
- Surveying and laser guiding equipment
- Welding machines, Air compressors
- Formwork sets for jacking shafts entry and thrust walls casting
- Cranes 12t, 25t, 50t(5 Nos.), 60t(2 Nos.) 70t, 100t & 220t

MICRO TUNNELLING / PIPE JACKING

Precision, Expertise and Experience Below the Surface

Our pipe jacking and micro tunnelling services provide innovative solutions for underground construction challenges. Our skilled team and the latest technology ensure that we minimise surface disturbances and achieve safe and efficient results.

SHAFT EXCAVATION

Unveiling Excellence in Shaft Construction

We are pioneers of shaft excavation. Our decades of experience and cutting-edge technology ensure that we deliver a project with safety and sustainability. We can meet a wide range of project requirements, from vertical shafts to special structures.

JACKING SHAFT RELATED CONCRETE WORKS

Concrete Structures of Excellence

Our expertise in jacking-shaft concrete works guarantees precision and durability. We use cutting-edge technologies to build structures that will last.

GROUTING WORK

Solid Foundations for Seamless Solutions

Arabian Jacking Enterprises is a leader in grouting work, with its precision, innovative methods, and commitment to sustainability and reliability. We improve structural integrity and strengthen foundations.

PIPE LAYING

Connecting and Forging Pathways

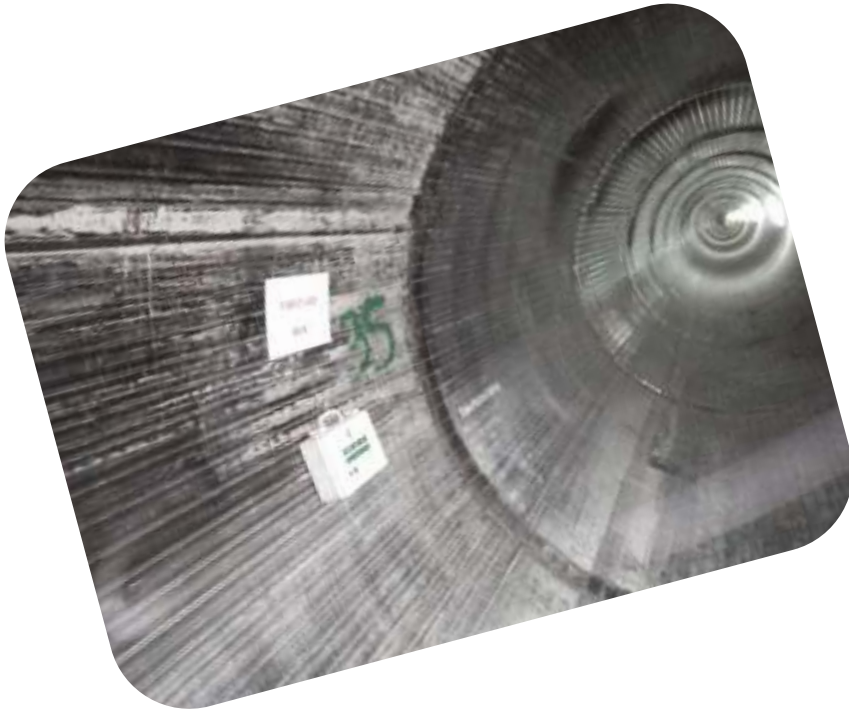

We combine our passion and experience to lay pipe connections that last. Even in difficult terrains, we ensure that installations are precise.

SUPPORTS FOR SPIDER RINGS IN CARRIER PIPES

Elevating Infrastructure through Precision

Spider rings support carrier pipes and ensures alignment. We provide seamless installation support with a focus on cutting-edge technology and expert supply.

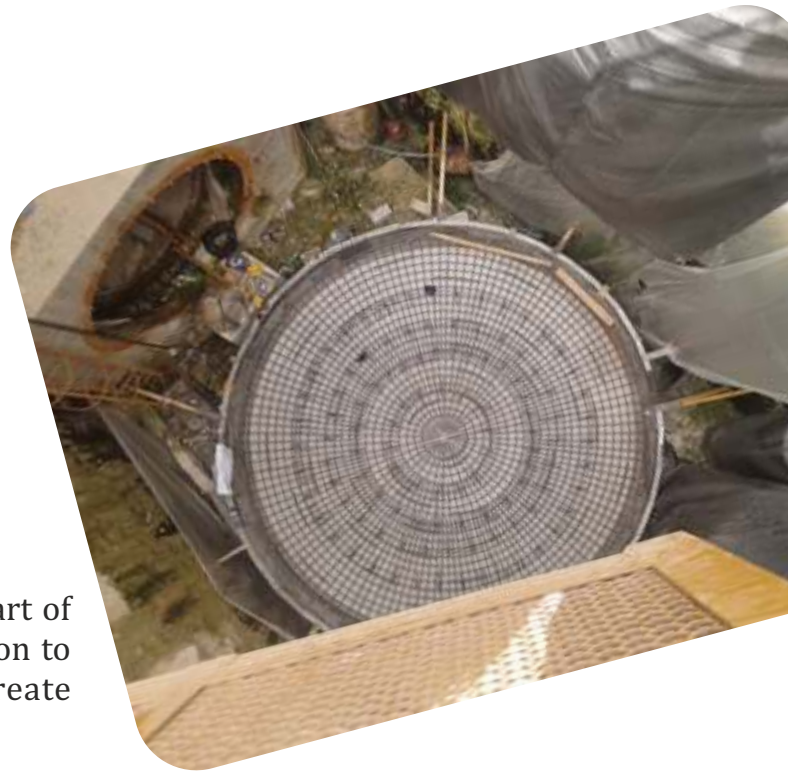

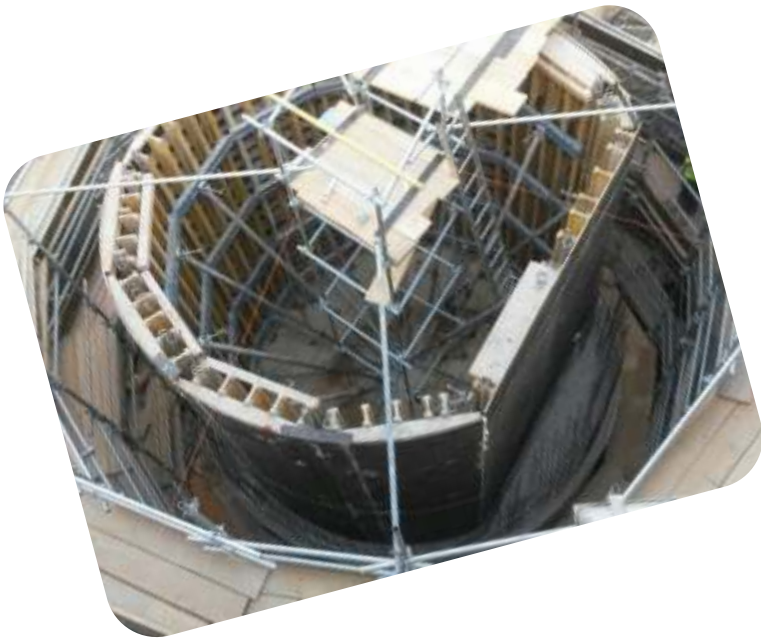

HDPE WELDING PIPE JOINTS WITH SPARK TEST

Seamless Fusion, Unbreakable Bonds

Our HDPE pipe welding and spark testing services ensure unbreakable bonds and long-lasting infrastructure. We perform thorough tests on reliability and weld with precision.

Manhole Construction

Crafting Access, Forging Excellence

Arabian Jacking Enterprises has mastered the art of manhole construction. With meticulous attention to detail and unwavering workmanship, we create pathways into the underground world.

ONSHORE EXCELLENCE AND OFF-SHORE EXCELLENCE

Expertise beyond Boundaries

Our onshore and off-shore services offer versatility and expertise in everything from coastal development to undersea installations. No matter the terrain, we deliver safety, quality, and durability.

Aject - Qatar Workshop

Maintenance on all TBM machines, and other machineries is done at AJECT Yard (ten thousand square meters; of which 1,000 square meters are workshop spaces).

Aject Qatar have well-Trained expert personnel to repair and troubleshoot the machines

Health, Safety & Environment

“Safety is always our top Priority”

It is AJECT’s responsibility to ensure compliance with its HSE (Health, Safety and Environment) norms. As part of the company’s commitment, all workers involved in the projects are trained to uphold and ensure “No Accidents, No Harm to People, and No Damage to the Environment” at all times. AJECT HSE were led by NEBOSH certified officers.

AJECT has proven its commitment to health and safety by successfully executing micro-tunneling projects in Qatar with Zero Incidents.

To ensure HSE management systems are implemented, AJECT created rules, guidelines, procedures, and system.
